

INVITATION

INTERNATIONAL MEDICAL CONFERENCE

Cancer Care without Borders

Innovation, Precision Medicine and Multidisciplinary Approaches to Cancer Diagnosis, Treatment and Long-Term Care

We are pleased to invite you, on behalf of the **Emergency Clinical County Hospital “Pius Brînzeu” Timișoara, Romania** to attend the Medical Conference “Cancer Care without Borders”, organized within the framework of the project: “Cross-border cooperation to foster the resilience of clinical management in cancer patients by establishing best practices in personalized molecular-based diagnostics, treatment, and long-term care – **CROSSCARE**”, Jems code RORS00040, implemented under the Interreg IPA Programme Romania-Serbia.

The conference will take place on **11–12 September 2026** in the Conference Hall of the **OncoGen Center**, within the Emergency Clinical County Hospital “Pius Brînzeu” Timișoara, Romania.

Cancer Care without Borders will bring together healthcare professionals, researchers, academic representatives, and medical technology and pharmaceutical industry partners with a shared interest in advancing cancer prevention, diagnosis, treatment, and long-term patient care.

The scientific programme will address the rapidly evolving landscape of modern oncology and personalized medicine, with a particular emphasis on multidisciplinary approaches and the integration of innovative technologies into clinical practice.

Topics will include, among others:

- Surgical approaches and advances in oncologic surgery
- Precision oncology and personalized treatment
- Next-generation sequencing (NGS) and molecular diagnostics
- Biomarkers and molecular profiling
- Immune profiling and immunotherapy
- Cardio-oncology and management of treatment-related cardiovascular complications
- Dermato-oncology and skin manifestations associated with cancer and cancer therapies
- Clinical cases and multidisciplinary approaches to cancer management
- Innovative medical technologies, equipment, and diagnostic platforms
- Long-term care and survivorship of cancer patients
- Cross-border cooperation and the implementation of best practices in cancer care

A dedicated part of the programme will present the results and experience gained through the CROSSCARE project, including the development and implementation of approaches for personalized molecular-based diagnostics, treatment strategies, and long-term management of cancer patients.

The conference will provide an opportunity to exchange clinical and research experience, present innovative approaches, discuss emerging technologies, and strengthen collaboration between medical institutions and professionals from Romania, Serbia, and beyond.

We warmly invite you to join us for two days of scientific exchange, interdisciplinary discussion, and collaboration, contributing together to the future of personalized and integrated cancer care without borders.

We look forward to welcoming you to Timișoara!

Sincerely,

Prof. Virgil Păunescu

Coordinator of OncoGen - Center for Gene and Cellular Therapies in the Treatment of Cancer
Emergency Clinical County Hospital „Pius Brinzeu” Timisoara
